PROBLEM STATEMENT

Current social media platforms lack a dedicated space for travel enthusiasts to share personalized travel experiences and build a community.

Introduction

- Travel enthusiasts lack a dedicated social media platform to share and explore personalized travel experiences.
- Potential travelers rely heavily on generic information, lacking insights from fellow travelers.
- Memories, a social media app, aims to bridge this gap by providing a platform for travelers to share their unique experiences.
- Memories will enhance pre-travel research and foster a vibrant travel community.

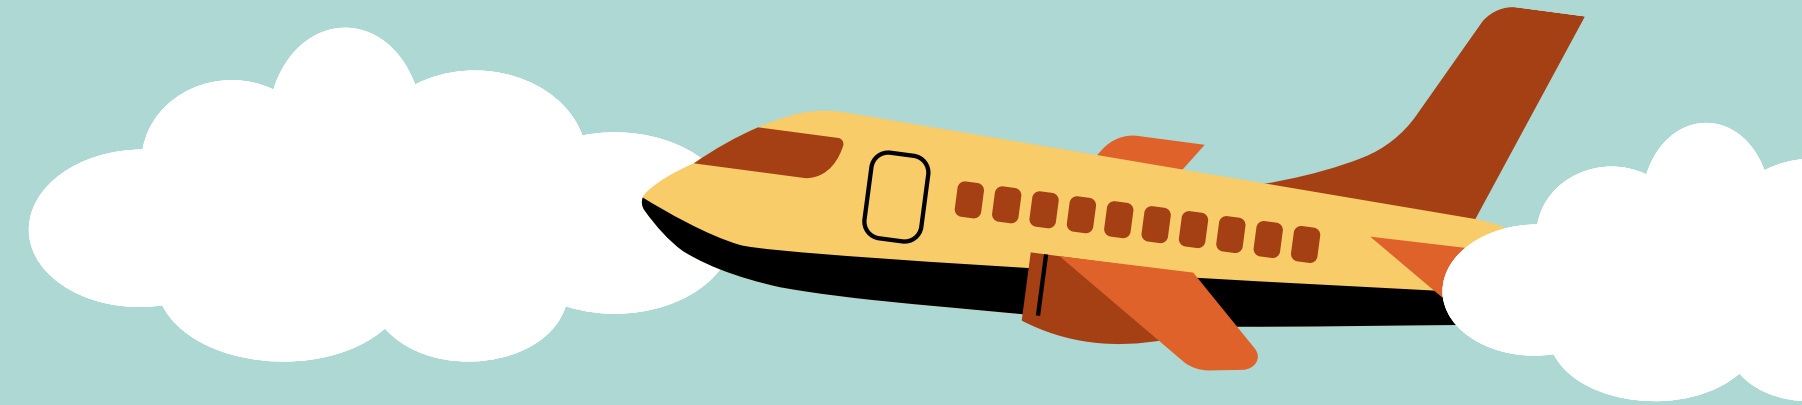

Objectives:

Share travel experience:

Enable users to share their vacation memories, including photos and descriptions.

Community Engagement:

Foster a sense of community among users who share a passion for travel. Allow users to connect, like & comment on each other's posts, creating an engaging social experience.

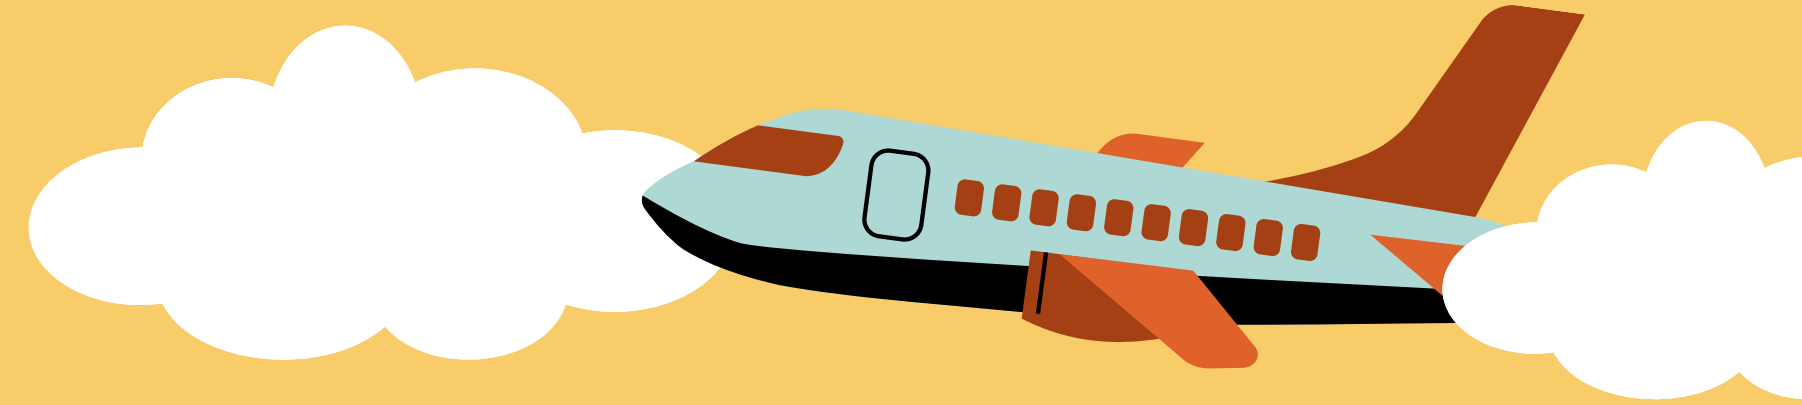

Facilitate Travel Planning:

Provide a platform for users to explore and gather information about destinations before planning their trips.

Search and Discovery:

Implement a robust search feature that allows users to search for specific destinations, attractions, or user profiles.

Objectives

User-Generated Content:

Encourage users to generate and share authentic content, building a diverse and comprehensive database of travel experiences.

Likes

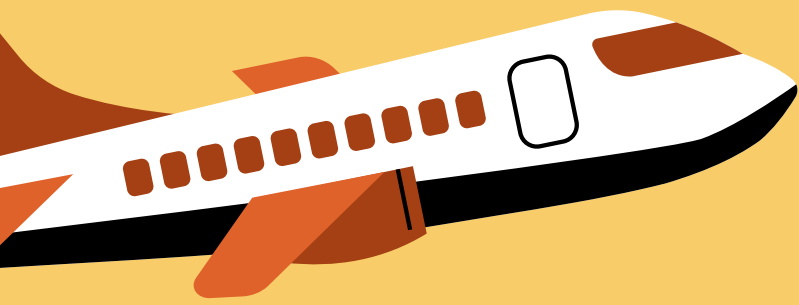

Allow users to leave and likes on posts

Analytics and Insights:

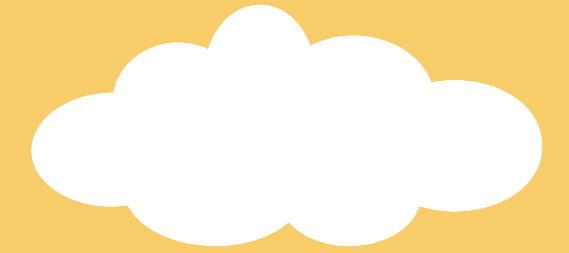

Provide users with insights into their posts' performance, such as the number of likes

Accessibility:

the app is user-friendly and accessible to a wide audience

Features :

Conclusion

- Redefines travel engagement:
- Dynamic platform for connecting:
- Transforms travel planning:
- Prioritizes user experience:
- Memories celebrates exploration, connects individuals through shared memories, and inspires future adventures.

Thank You!
